People Counter

PHOTO

The Emroth Technology Pty Ltd People Counter provides a simple yet effective people counting system with battery back count and different styles of Annunciators. The Counter can be configured for single door or dual door operation. Large Digit Displays can be added to show current counts.

Features:

- 8 digit counter.
- Omron Infra-Red Beam Detector with Reflector (2 m beam suitable for 2m door).
- Single or dual door operation (count up and count down).
- Plug pack power supply
- Battery Backed Up Count.
- 4m connecting cable pre-wired between Counter and Infra-Red Beam Detector
- Pre-wired / easy installation (Just plug the plug pack into power and the people counter will work).
- Adjustments for the size of objects to be counted and the gap between objects.
- Totaliser mounted with connector block in Clipsal 2000MB Mounting Block and Switch Plate (size 123mm W x 80mm H x 68mm D).

Ideal For:

- Libraries
- Public Venues
- Schools
- Conferences
- Entertainment Venues
- Sporting and social clubs
- Shopping Centers
- Retail Outlets

- Car Parks
- Vehicle Pool Control
- Parking Station Control

System Description:

Each time the Infra-Red Beam is broken the counter either increments (counts up) one or decrements (counts down) one.

The Counter Display is battery backed and can be manually reset or the reset can be disabled.

The Annunciator can be configured to operate on each count on only after a selected time out period. IE The Annunciator only sounds after a gap of several seconds or minutes.

Options:

- Annunciator - Piezo beeper
- Annunciator - Voice Message
- Annunciator - Screamer and Blue Strobe light (use for warning purposes)
- Large Digit Displays (50mm Digits and 200mm Digits)
