## Deluxe People Counter

PHOTO - Deluxe People Counter

**The Emroth Technology Pty Ltd Deluxe People Counter provides a simple yet effective people counting system with interface ability to PCs. The Counter Controller Module can connect up to 8 individual beam detectors which are each logged individually. The unique configuration ability of the Counter Controller Module allows for easy customization of count configuration, e.g. Some doors are "IN" only, some are "OUT" only, some may be both "IN" and "OUT". This type of configuration is simple to implement and easy to change.**

### Features:

- Up to 8 beam inputs (doors)
- Individual logging per door
- Summing, and other basic arithmetic logic built into the Counter Controller Module.
- Configuration via down load file from PC.
- Can operate with or without connection to PC.
- Omron Infra-Red Beam Detector with Reflector (2 m beam suitable for 2m door).
- Plug pack power supply
- Battery Backed Up Count.
- Pre-wired / easy installation (Just plug the plug pack into power and the people counter will work).
- Adjustments for the size of objects to be counted and the gap between objects.

### Ideal For:

- Libraries
- Public Venues
- Schools
- Conferences
- Entertainment Venues
- Sporting and social clubs
- Shopping Centers
- Retail Outlets
- Car Parks

- Vehicle Pool Control
- Parking Station Control

### System Description:

Each time the Infra-Red Beam is broken the counter either increments (counts up) one or decrements (counts down) one, or applies other arithmetic logic to the counts.

The included software allows the stored counts to be easily down loaded and reports generated. The simple software will export text files for importing and statistical analysis in your favorite spread sheet program.

Large Digit Displays can be directly interfaced to show current counts or attendance.

### Options:

- Annunciator - Piezo beeper
- Annunciator - Voice Message
- Annunciator - Screamer and Blue Strobe light (use for warning purposes)
- Large Digit Displays (50mm Digits and 200mm Digits)

### Delivery:

Ex-Stock
